

Face the elements

with Berry Astrapak's Stick Applicator

For the adventurer, sportsman and nature-lover, Berry Astrapak's Stick Applicator is the ideal companion for on-the-go activities or excursions to the outdoors.

Lightweight and convenient, the push-up stick applicator is small in diameter and suitable to contain smear-on skin products, including sunblock, insect repellent and solid deodorant. Offering a versatile packaging solution, applications within the personal care market are endless.

As an additional advantage for small business owners, the Stick Applicator is a low Minimum Order Quantity (MOQ) item. The PP stick has the capacity to hold 30 grams of product and can be manufactured in various colours. Decoration is customer managed and the tube body lends itself well to labelling.
